

Master Naturalists Present...

Nature presentations from local experts of
the North Texas Master Naturalists
Every 3rd Saturday @ 11 AM

Saturday, March 20 11 am - 12 pm
Fun Facts about Hummingbirds

Curious about hummingbirds? In this month's "Master Naturalists Present..." nature talk Janet D. Smith explains all about the ruby-throated hummingbirds that we see so many of in the DFW area starting in mid-March: physical characteristics, range, life cycle. Most importantly you will learn how to help them since their food sources have been so severely reduced due to the big freeze.

**This program is available online only, through Zoom.
