

Master Naturalists Present...

Nature presentations from local experts of
the North Texas Master Naturalists
Every 3rd Saturday @ 11 AM

Saturday, January 15 11 am - 12 pm
**Indigenous Use of Fire: Impacts
on the Landscape**

Fire was prescribed like medicine by indigenous people to maintain fire dependent ecosystems, optimize habitat, and promote biodiversity. This presentation, from Master Naturalist Meghan Peoples, reviews ancient practices to discover how human use of fire shaped the American landscape and explores its modern utility to prevent disaster and enhance environmental well-being.

This program is available online only, through Zoom.
