

# Master Naturalists Present...

Nature presentations from local experts of  
the North Texas Master Naturalists

Saturday, June 18 11 am - 12 pm  
**Pollinators, Ya Gotta Love Them**

This talk, by Master Naturalist/Master Gardener Janet D. Smith, explains why we all benefit from providing plants for bees, butterflies, hummingbirds and other pollinators. Foliage is attractive but blooming flowers are necessary to feed the pollinators. Learn which types of plants are best, where to buy them and which plants don't deliver what pollinators want and need.

**This program is available online only, through Zoom.
