## STEAM Events this Summer at Skyline!

### Paper Circuits

Wednesday, June 12th, 1:00 pm

Learn about circuits and how electricity moves while making a light up greeting card. Recommended for ages 7 and up for no more than 30 kids.

### Perot TECH Truck

Tuesday, June 18th, 1:00-3:00 pm

Come explore science and creativity when the Perot Tech Truck visits Skyline!

Museum of Nature and Science

### Build a Racetrack

Wednesday, June 26th, 1:00 pm

Did you know you can use math to build a racetrack? Test your skills, build a racetrack, and then compete with friends to see whose is the fastest! Recommended for no more than 25 kids, best for ages 6 and up!

### Space Magic

Tuesday, July 2nd, 1:00 pm

Get ready for a fun and fast-paced magic show with alien puppets from all over the galaxy. Learn the difference between science fiction and real science. Be a part of the space race and plant the American flag on the moon!

### Constellation Cards

Wednesday, July 10th, 1:00 pm

After learning about stars, create your very own book of constellations. Recommended for no more than 25 kids, ages 5 and up.

### Color Science

Wednesday, July 24th, 1:00 pm

Create an amazing rainbow of colors through a combination of art and science. Recommended for no more than 24 kids, ages 5 and up.
